Abstract (Basic): \*EP 1159950\* A1

NOVELTY - Transferless make-up or care composition comprises a volatile hydrocarbon oil (I) and a hydroxy- or carboxy-functional synthetic wax (II) with a m.pt. of 75-120degreesC and defined Hansen solubility parameters.

DETAILED DESCRIPTION - Transferless make-up or care composition comprises a volatile hydrocarbon oil (I) and a hydroxy- or carboxy-functional synthetic wax (II) with a m.pt. of 75-120degreesC and Hansen solubility parameters  $\Delta t_{ad}$ ,  $\Delta t_{ap}$  and  $\Delta t_{ah}$  such that  $\Delta t_{ad}=15.5-18.5 \text{ J1/2/cm3/2}$  and  $\Delta t_{aa}=4.5-7.5 \text{ J1/2/cm3/2}$ , where  $\Delta t_{aa}=(\Delta t_{ap}^2 + \Delta t_{ah}^2)^{1/2}$ .

USE - The composition is useful as a lipstick, make-up foundation, blusher, eye shadow, mascara or powder compact.

ADVANTAGE - The combination of (I) and (II) inhibits transfer of the composition from the skin, lips or keratinic fibers to other surfaces, e.g. glasses, cups, cigarettes or clothing.
